Animal Stars Details from "Rider's Rescues - Animal Stars" PDF

Mouse – 2,000 pound 171 Percheron Draft Horse. She was born in Minnesota and broken by the Amish. She is 16 years old and was a buggy puller in Fort Meyers for many years and because of that she is a calm, cool, collected lead mare who doesn't take any crap. She has got an insatiable appetite and a bionic nose for food. She also has a fun playful side that pokes out from time to time. Mouse was also a mommy once.

Dallas – 800 pound 13.1 hand Bay Morgan Pony. She is 16 years old and looks like a toy next to Mouse. Dallas is a sweet natured happy go lucky girl who is also very skittish and always a little nervous and shy. However once you put a saddle on her she is all business and very skilled. She has got turbo afterburner speed and watching her run is amazing. Dallas does have a pretty big belly at times cus' she loves to eat and we have had to put her in a grazing muzzle for most of the summer to keep her weight under control.

RIDER'S RESCUES - PEOPLE STARS

Rider – Father, husband, Voice Over Artist who does movie trailers, narrates tv shows who loves to play guitar, smoke meat, do martial arts and ride his horse Mouse.

Moose – 14 year old pure bred red- tri color Australian Shepherd. Loves to chew up toys and bone eat ice cubes, run with the horses and sleep and snore. We adopted Moose when he was three and little known fact, Aussies are the most returned dog of all breeds to shelters. Their herding instincts are insane as well as their protectiveness of their people. Aggression and herding are two different things that look very similar and Moose has very strong herding instincts although are finally starting to calm down in his senior years.

Sophie – "Social Sophie" as we call her is the Herd Queen of the goats and is equal parts loving, inquisitive and fierce. We call her the MOO because she is black and white like a cow and she loves to eat hay, sticks, grass, goat chow, my shirt, my sons 4 wheeler brake lines etc. She is super friendly and always the first to come up and say hi. She loves to be pet and is an amazing mother to her baby Luna.

Luna – "Loaner Luna" is the opposite of her mother Sophie. She is quiet and reserved and would rather spend time by herself. She has the exact same markings as her mamma only she's brown thanks to her pappa. We call her little nubs because she has the cutest little tiny horns that she will use on you without hesitation if she feels trapped or threatened.

Sig – Named after his human Dad's favorite gun maker Sig is the OG "Old Goat," of the herd. He has the most impressive horns and is one intimidating goat however he is also a giant chicken and basically afraid of everything especially brooms and rakes. Sig has an impressive goatee that my son says makes him kinda look like a turkey. Sig is the pappa goat to Luna and Rocky but is now fixed thankfully.

Rocky Valentine – Rocky was born on you guessed it...Valentine's Day and he is the coolest looking goat and bares a striking resemblance to Peter Dinklage from Game of Thrones or ALF take your pick. Rocky is hands down the most loving and friendly of the group and if he could would just sit in your lap and snuggle all day. However, he is now 60 plus pounds so well that had to stop. Both Rocky and his sister Luna were bottle fed babies that were born here on the ranch.

Penelope - Mom to Rocky, Penelope is very diva like. Very prim and proper never really playing and having fun with the group but always the first to scrap with anyone who wants to try. She is a no nonsense fighter who was also a great mamma to her boy.

Elseigh – is a 6 year old Sun Conure. The annoyingly loudest and most colorful addition to the Rider Family Ranch. She spends a lot of time in bird time out because of her mouth. Yup she likes to talk back. Conures are very social creatures who feel like they MUST be a part of every conversation that goes on in the house. She will eat just about anything you give her and oddly loves buffalo chicken wings. I know...wrong. Her wings are clipped and spends time either on our shoulder or in either her night cage or big day cage.

The Pups:

- Dixie Blue
- Delilah Blue
- Demi Blue

If the puppies decided to start a band it's name would be "Dirty Puppy."

Emerson – 7 years old, first grade. Loves legos, Fortnite, singing and riding his pony Dallas, and is a budding voice over artist just like his dad.
